2 FACTOR AUTHENTICATION - STEP 1 OF 3

We have recently upgraded our system security. This is for the protection of our customers and their personal data. All users are now required to use 2-Factor Authentication when logging into the system. In order to setup 2-Factor Authentication you will need to download the Google Authenticator App.

You can download the app using the buttons below, or just search for "Google Authenticator". You will only be required to setup the app once. From then on you will access the app to receive your 1 time token.

To download "Google Authenticator", click on the image or use the link.

Download on the App Store

GET IT ON Google Play

App Store Link
<https://apps.apple.com/us/app/google-ai>

Google Play Link
<https://play.google.com/store/apps/detail>

COPY APP STORE LINK COPY GOOGLE PLAY LINK

After you have successfully downloaded the app please press continue below.

Note: If you are already using the Google Authenticator Application to access other systems please skip this setup, you will need to add a new device using the + icon on your Authenticator App and continue to step 2.

I DOWNLOADED GOOGLE AUTHENTICATOR

5 Scan the QR Code through your Google Authenticator App on screen.

OR

If you are using a mobile, copy and paste the alternative Account Key
